AL QANA

Al Qana stands as a pioneering waterfront destination in Abu Dhabi, redefining social dining and entertainment. Notably, it braved Abu Dhabi's challenging weather conditions, making Securock® the chosen solution for external cladding. Its resilience against severe weather and its swift application proved instrumental in its selection.

Al Qana, Abu Dhabi's groundbreaking waterfront destination, redefines social experiences. Stretching over 2.4km, it boasts seven anchor destinations, including the largest standalone cinema in Abu Dhabi, the Middle East's largest aquarium, and a cutting-edge lifestyle hub. Encouraging social interaction, it features a VR park, a kids' zone, and wellness facilities. The Canal Walk, part of the National Trail, is a district of national and international significance. It houses a 5-star hotel, international dining, galleries, a cinema, sports facilities, and high-end retail.

Nestled in the vibrant Opera District of Downtown Dubai, Il Primo presents opulent living just moments from the renowned Dubai Opera. These luxury apartments offer expansive layouts and captivating views of Downtown Dubai. Among its array of exceptional amenities, Il Primo is decorated with our Mineral Fiber Ceilings and Celebretto® Metal Ceilings. Residents enjoy year-round entertainment options with calm and acoustical proofing spaces for leisure and relaxation.

The residence stands in immediate proximity to Burj Khalifa, The Dubai Mall, Souk Al Bahar, Sheikh Mohammed bin Rashid Boulevard, and other iconic venues, enhancing the allure of Downtown Dubai. With convenient access to major roads and the Dubai Metro, exploration is effortless for both residents and visitors.

TwoFour54, named after the coordinates of Abu Dhabi, was launched in 2008 and stands as a pivotal entity in the city's burgeoning creative and media landscape. Serving as a catalyst for creative industries, twofour54 provides tailored spaces to nurture and support these dynamic communities. More than just a location, it's a hub for inspiration and innovation. Creating a thriving environment for creative minds to flourish.

With our commitment to excellence, we've also provided Soundblock® Perforated Gypsum Tile, ensuring top-notch acoustical performance in the finest office spaces for the TwoFour54 New Offices.

MONOSILENT MONOLITHIC ACOUSTICAL CEILING

In the bustling Dubai Hills Mall, Café Bateel, a high-traffic restaurant, sought to create a tranquil dining atmosphere.

They turned to our Monosilent Monolithic Acoustical Ceiling to tackle noise concerns. This choice not only absorbed disruptive sounds but also added to the cafe's ambiance. To further enhance the aesthetic, we expertly applied a dark grey acoustical spray, elevating both form and function in perfect harmony. Café Bateel's journey with our Monosilent solution transformed a noisy space into an oasis of serenity, offering patrons an exceptional dining experience amidst the mall's vibrant activity.
