

EXPANDED DIAMOND METAL LATH

DESCRIPTION

Expanded diamond metal lath is a hot dip galvanized sheet with a multipurpose use used for exterior plaster applications and provides an excellent plaster base. It is corrosion resistant and easily cut and formed. It could be stapled, nailed or screwed to the substrate. It has exceptional strength and flexibility and preferred by many of the contractors worldwide.

PRODUCT CATEGORY

- Hot Dipped Galvanized
- Flat/dimple
- Diamond Hole Shape
- 70, 100, 150mm dimple distance
- G30, G60, G90 and zinc coating.
- 0,3mm to 0.6mm sheet thickness
- 685 mm x 2460 mm
- Comply with ASTM A240 & ASTM C-847
- Comply with ASTM A653/A 653M and ASTM 1063
